FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The contract agreements will be in the form previously reviewed and approved by County Counsel. The recommended contracts were solicited on an open competitive basis and are in accordance with applicable Federal, State, and County requirements. The contractors are in compliance with the Chief Executive Officer's and your Board's requirements.

These contracts contain terms and conditions supporting your Board's ordinances, policies, and programs, including but not limited to: County's Greater Avenues for Independence and General Relief Opportunities for Work Programs (GAIN and GROW), Board Policy No. 5.050; Contract Language to Assist in Placement of Displaced County Workers, Board Policy No. 5.110; Reporting of Improper Solicitations, Board Policy No. 5.060; Notice to Contract Employees of Newborn Abandonment Law (Safely Surrendered Baby Law), Board Policy No. 5.135; Contractor Employee Jury Service Program, Los Angeles County Code, Chapter 2.203; Notice to Employees Regarding the Federal Earned Income Credit (Federal Income Tax Law, Internal Revenue Service Notice 1015); Contractor Responsibility and Debarment, Los Angeles County Code Chapter 2.202; and the Los Angeles County's Child Support Compliance Program, Los Angeles County Code, Chapter 2.200; and the standard Board-directed clauses that provide for contract termination or renegotiation.

The State Public Contract Code requires the County to award construction contracts to the lowest responsive and responsible bidder, which is defined as the firm that; (1) submits the bid with the lowest cost; (2) is deemed by the County to be responsive to specific criteria under the solicitation, including, but not limited to licensure, bonding, and insurance requirements; and (3) is determined by the County to be a responsible bidder by exhibiting the capability, capacity, experience, trustworthiness, and financial wherewithal to perform the work required under the bid solicitation.

To ensure the contracts are awarded to the lowest responsible contractor with a satisfactory history of performance, bidders are required to report violations of the False Claims Act, criminal convictions, civil litigation, defaulted contracts with the County, complaints filed with the Contractor's State License Board, labor law/payroll violations, and debarment actions. As provided for in Board Policy No. 5.140, the information reported by each respective contractor was considered before making this recommendation to award.

The plans and specifications include the contractual provisions, methods, and material requirements necessary for this project and are on file with the Department of Public Works.

ENVIRONMENTAL DOCUMENTATION

Each of these projects was found to be categorically or statutorily exempt from the provisions of the California Environmental Quality Act at the time your Board called for bids. The specifics of these findings are included in the attachment for each project.

CONTRACTING PROCESS

The contracts were solicited on an open competitive basis in accordance with the provisions of the Public Contract Code.

The State Labor Code requires contractors to pay prevailing wage rates to all persons employed on public works construction contracts. These rates are determined by the Department of Industrial Relations and include contributions for fringe benefits such as vacations, pension funds, training, and health plans for each employee.

To further increase contractor awareness of contracting opportunities with the Department of Public Works, each of these projects was listed on the County website for upcoming bids.

The Department of Public Works will review and approve the faithful performance and payment bonds filed by the contractors.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

These construction and maintenance service contracts will result in improved public works infrastructure in the communities where the work is scheduled.

CONCLUSION

Please return one adopted copy of this letter to the Department of Public Works, Construction Division.

Respectfully submitted,

WILLIAM T. FUJIOKA
Chief Executive Officer

Caliagua, Inc., was the apparent low bidder with a bid of \$1,387,942.00; however, they requested that their bid be withdrawn due to a clerical error resulting in a significant underbid. Our review confirmed that a bonafide clerical error had been made and that Caliagua, Inc., should be relieved of its bid proposal as provided in the Instructions to Bidders. Therefore, we recommend award of the contract to the next lowest, responsible bidder.
